Note: Workshop may be transitioned to virtual depending on COVID-19 and/or weather.

This thought-provoking workshop will engage early care and education providers around the topic of power and control. Participants will discover their own thoughts about power and control. They will also take a closer look at their interactions with other adults and children in their care, understand how the need for power fits with child growth and development, learn new ways to empower children, and balance tensions in the classroom.

Participants will leave with ideas on how to manage power struggles and create harmony within the classroom and the children in their care.
